  - c. AutoSPeedWatch trial update
    - i. Seven councils submitted requests to have the SDRSG trial ASW unit, Frocester was chosen because it is a small council with limited resources and a significant speeding problem was identified by our VAS deployment. The ASW unit was installed but a hardware fault required the unit to be replaced, which the suppliers did very quickly. Images are taken of the rear of every vehicle exceeding the 38mph threshold we have set for this unit. During the first week of use we have the Vehicle Registration Mark (VRM) could not be read on some vehicles because of flaring due to low sunlight or headlights from closely following vehicles. However, most VRMs are easily verified.
  - d. Peter Street status
6. Planning
  - a. Pond House solar array – Installation of a 21-panel ground mounted P.V. array in the northern point of the garden - permitted
7. Any other business – next meeting date
